West Paterson, N.J. 07424

Re: Modification to the Class B General Approval
W.P.A.R., Inc.
West Paterson, Passaic County
Facility No. 1616001182

Dear Mr Scine:

This is in response to the modification request submitted on your behalf by AJV Engineering, dated August 18, 1999 and subsequent submittals dated March 8, 2000, April 13, 2000, May 8, 2000 and May 19, 2000, June 27, 2000 wherein you requested the following modifications to the General Class B Recycling Center Approval issued to W.P.A.R. on November 17, 1995:

- ? Request to accept, store and transfer Class A recyclable material.
- ? The request to accept, store, process or transfer incidental amounts of leaves.
- ? Reconfiguration of existing stockpile areas.
- ? An access road from Lackawanna Avenue to the facility.

Our review of each of these modification requests has been completed and as a result, we have found each to be acceptable. Enclosed is a copy of your revised Class B General Approval.

The revised Approval indicates the modification to the conditions effected, Conditions A.1, A.2, B.1, C.3, C.4, C.5, C.6 and C.21. In addition, Conditions C.2, C.11, C.14, C.18, and C.22 have been revised or updated. These conditions must be complied with in order for the permit to remain valid.

The Department will consider amendment or modification of the specific terms of the conditions of this Approval if a written request is submitted by certified mail within twenty (20) days of receipt of the Approval. Said written request must clearly state the proposed amendment or modification, and the factual basis for the request. This Approval are non-transferable.

If you have any questions regarding this matter, please contact Carolyn Hansel, of my staff, at (609) 984-6650 or by e-mail at chansel@dep.state.nj.us.

Sincerely,

Thomas Sherman,
Assistant Director
Office of Permitting
& Technical Programs

**RECYCLING CENTER
GENERAL APPROVAL CONDITIONS
FOR RECEIPT, STORAGE, PROCESSING OR TRANSFER
OF CLASS B RECYCLABLE MATERIALS**

Under the provision of N.J.S.A. 13:1E-1 et seq. and N.J.S.A. 13:1E-99.11 et seq., known as the Solid Waste Management Act and the New Jersey Statewide Mandatory Source Separation and Recycling Act, respectively, and pursuant to N.J.A.C. 7:26A-1 et seq., known as the Recycling Regulations, this Approval is hereby issued to:

W.P.A.R., Inc.

MUNICIPALITY: West Paterson
BLOCK NO.(S): 122
LOT NO.(S): 1.03
COUNTY: Passaic
CAPACITY: 50 TPD (Wood)
20 TPD (Concrete)
60 TPD (Class A April-Sept.)
100 TPD (Class A Oct.-March)
RECYCLING CENTER NUMBER: 1616001182
APPROVAL EXPIRATION DATE: November 17, 2000

This Approval is subject to compliance with all conditions specified herein and all regulations promulgated by the Department of Environmental Protection or as may be amended in the future. All references to specific regulations include any future amendments thereto.

This Approval shall not prejudice any claim the State may have to riparian land, nor does it allow the facility or its principals to fill or alter, in any way, lands that are deemed to be riparian, wetlands, stream encroachment areas or flood plains, or that are within the Coastal Area Facility Review Act (CAFRA) Zone or are subject to the Pinelands Protection Act of 1979, nor shall it allow the discharge of pollutants to waters of this State without prior acquisition of the necessary grants, permits, or approvals from the Department of Environmental Protection.

Compliance with the terms of this Approval does not relieve the facility or its principals of the obligation to comply with all applicable state and federal statutes, rules and other permits, and municipal approvals or ordinances which are not preempted by the DEP solid waste regulations at N.J.A.C. 7:26-1 et seq. and the recycling regulations at N.J.A.C. 7:26A-1 et seq.

Failure to comply with all the conditions specified herein may result in revocation of this Approval and/or may result in other regulatory or legal actions which the Department is authorized to institute by law.

This Approval shall be effective for not more than five (5) years from the original issuance date. An Approval renewal shall be obtained from the Department prior to any activities which are to occur after the expiration of this Approval. In applying for a renewal, applicants shall follow the renewal submission requirements and procedures set forth in N.J.A.C. 7:26A-3.6.

This Approval is non-transferable, except as set forth in N.J.A.C. 7:26A-3.15.

<u>Director</u>	<u>Signed by Thomas Sherman, Assistant</u> Thomas Sherman Assistant Director Office of Permitting & Technical Programs

Expiration Date

Recycling Center General Approval
for
W.P.A.R., Inc.

A. AUTHORIZED RECYCLABLE MATERIALS

1. Permitted Class B Recyclable Materials (Revised
7/17/00)

The following source separated Class B recyclable materials which have been separated at the point of generation from other waste materials or separated at a permitted solid waste facility authorized to separate recyclable materials may be received, stored, processed or transferred at this facility:

Tree stumps
Tree parts
Brush (with incidental amounts of leaves)
Wood (specifically unpainted and non-chemically treated)

The following masonry materials may be received, stored or transferred on site, however, no processing of masonry materials is permitted on-site:

Bricks
Stones
Parts of Cinder Blocks and Cement

At no time shall the receipt, storage, processing or transferring of non-source separated construction and demolition material be allowed at this facility. The prohibition of this material shall be strictly enforced and any incident shall be considered a serious violation to the conditions of this Approval.

2. Permitted Class A Recyclable Materials (Revised
7/17/00)

The following source separated Class A recyclable materials which has been separated at the point of generation from other waste materials or separated at a permitted solid waste facility authorized to separate recyclable materials may be received, stored, or transferred at this facility:

Scrap Metal
Paper
Cardboard
Glass
Plastic

3. By-Products

Incidental amounts of rebar, metal, soil and other by-products which adhere to the Class A and Class B recyclable materials as specified in Condition A.1 and A.2 and returned to the economic mainstream as raw material or products, may be received, stored, processed or transferred at this facility. Its receipt shall not be separately accounted for but its storage and end-markets shall be subject to specific conditions of this Approval.

4. Contaminants

The maximum amount of contaminants, as defined in N.J.A.C. 7:26A-1.3, allowed in each incoming load of Class A and Class B recyclable materials for acceptance shall be limited to 1% by volume.

Incidental by-product materials included within the Class B recyclable materials shall not be considered to be contaminants.

B. DESIGN AND CONSTRUCTION

The construction of this facility shall be in accordance with the provisions of N.J.A.C. 7:26A-1 et seq., the New Jersey Uniform Construction Code, the approved documents listed below and this Approval.

1. Approved Documents (Revised 7/17/00)

- ? Site Plan: prepared for W.P.A.R., Inc. by AJV Engineering, Inc., signed and sealed by Angelo J. Valetutto, P.E., dated October 13, 1997, last revised March 23, 2000.
- ? West Paterson Recycling, Inc., - Application for a General Class B Recycling Center Approval, prepared by Steven J. Picco of Picco Mack Herbert, dated October 7, 1994.
- ? West Paterson Recycling., Inc., Letter and attachments, prepared and signed by Don Scine, President, W.P.A.R., Inc., dated November 5, 1995.
- ? W.P.A.R., Inc. - Letter requesting name change to W.P.A.R., prepared and signed by Steven J. Picco, Esq., Inc., dated July 26, 1996.
- ? W.P.A.R., Inc.- Modification request to the General Approval, prepared and signed by Angelo J. Valetutto, P.E., dated October 14, 1997.

- ? W.P.A.R., Inc. - Modification request to the General Approval, prepared and signed by Angelo J. Valetutto, P.E., dated January 14, 1998.
- ? W.P.A.R., Inc. - Modification request to the General Approval, prepared and signed by John J. Pislор, dated February 23, 1998.
- ? W.P.A.R., Inc. - Modification request to the General Approval, prepared and signed by John J. Pislор, dated March 5, 1998.
- ? W.P.A.R., Inc. - Letter, prepared and signed by Don Scine, President, W.P.A.R., Inc., dated March 8, 2000.
- ? W.P.A.R., Inc. - Letter, prepared and signed by Don Scine, President, W.P.A.R., Inc., dated April 13, 2000.
- ? W.P.A.R., Inc. - Letter of end markets, prepared and signed by Don Scine, President, W.P.A.R., Inc., dated May 8, 2000.
- ? W.P.A.R., Inc. - Letter, prepared and signed by John J. Pislор, Inc., dated May 19, 2000.

C. RECYCLING CENTER OPERATIONAL STANDARDS

The operation of this facility shall be in accordance with the provisions of N.J.A.C. 7:26A-1 et seq., the standards set forth herein and the approved documents specified in Condition B.1. Where any discrepancy exists, the terms of this Approval shall prevail.

1. Hours of Operation

Hours of operation for receiving, storing, processing or transferring source separated recyclable material as specified in Condition A.1 and A.2 of this Approval shall be limited to 7:00 a.m. to 7:00 p.m., Monday through Saturday.

2. Residue (Revised 7/17/00)

Residue defined as solid waste, shall be transported by a NJDEP registered transporter for disposal pursuant to the applicable district solid waste management plan.

Residue shall be stored separately from recyclable material in containers and in a manner which prevents run-off, leakage or seepage from the residue storage area into, on or around the soil of the residue storage area.

No residue shall be stored on site for a period exceeding six (6) months without prior approval of the NJDEP.

3. Maximum Daily Capacity
7/17/00)

(Revised

a. Class B Materials

The facility may receive no more than 70 tons per day of Class B recyclable materials consisting of 50 tons per day of tree stumps, tree parts, brush, and wood (specifically unpainted and non-chemically treated), and 20 tons per day of bricks, stones, cinder blocks and cement, as specified in Condition A.1 of this Approval.

b. Class A Material

i. April through September

The facility may receive no more than 60 tons per day of Class A recyclable materials during the months of April through September, consisting of 50 tons per day of scrap metal, 4 tons per day of paper, 3 tons per day of cardboard, 2 tons per day of glass and 1 ton per day of plastic.

ii. October through March

The facility may receive no more than 100 tons per day of Class A recyclable materials during the months of October through March, consisting of 50 tons per day of scrap metal, 20 tons per day of paper, 15 tons per day of cardboard, 10 tons per day of glass, and 5 tons per day of plastic.

4. Maximum Weekly Capacity

(Revised 7/17/00)

a. Class B Materials

The facility may receive no more than 420 tons per week of recyclable materials consisting of 300 tons per week of tree stumps, tree parts, brush and wood material (specifically unpainted, non-chemically treated) and 120 tons per week of bricks, stones, cinder blocks and cement, as specified in Condition A.1 of this Approval.

b. Class A Materials

i. April through September

The facility may receive no more than 360 tons per week of class A recyclable materials during the months of April through September, consisting of 300 tons per week of scrap metal, 24 tons per week of paper, 18 tons per week of cardboard, 12 tons per week of glass and 6 tons per week of plastic.

ii. October through March

The facility may receive no more than 600 tons per week of Class A recyclable materials during the months of October through September, consisting of 300 tons per week of scrap metal, 120 tons per week of paper, 90 tons per week of cardboard, 60 tons per week of glass and 30 tons per week of plastic.

5. Unprocessed Materials Storage (Revised 7/17/00)

- a. The total amount of unprocessed wood material stored on site shall not exceed 13,424 cubic yards and shall be stored only in those areas designated for that purpose as indicated on the approved site plan drawing. At no time shall more than two (2) of the stockpiles designated on the site plan as "unprocessed/processed material stockpiles" contain unprocessed material.

If at any time, the amount of unprocessed wood material stored on site exceeds 13,424 cubic yards, the facility shall immediately cease receiving any unprocessed material until the amount of wood material stored on site falls below 13,424 cubic yards.

At no time shall unprocessed and processed wood material be commingled in any of the approved stockpile areas.

- b. The total amount of unprocessed brick, stone, cinder block and cement material stored on site shall not exceed 1,170 cubic yards. Unprocessed brick, stone, cinder block and cement material stored on site shall be stored only in those areas designated for that purpose as indicated on the approved site plan drawing.

If at any time, the amount of unprocessed brick, stone, cinder block and cement material stored on site exceeds 1,170 cubic yards, the facility shall immediately cease receiving any unprocessed brick, stone, cinder block and cement material until the amount of unprocessed brick, stone, cinder block or cement material stored on site falls below 1,170 cubic yards.

- c. Class A Material (Scrap Metal)

The total amount of unprocessed Class A scrap metal stored on-site shall not exceed 500 cubic yards and shall be stored only in the areas designated for that purpose as indicated on the approved site plan drawing.

If at any time, the amount of unprocessed Class A

scrap metal stored on-site exceeds 500 cubic yards, the facility shall immediately cease receiving any unprocessed Class A scrap metal until the amount of unprocessed Class A scrap metal stored on site falls below 500 cubic yards.

d. Class A Material (paper, cardboard, glass and plastic)

i. April through September

The total amount of unprocessed Class A recyclable material consisting of paper, cardboard, glass and plastic, stored on site, shall not exceed 27 cubic yards and shall be stored in roll off containers inside the metal building as depicted on the approved site plan drawing.

If at any time the amount of unprocessed Class A recyclable material consisting of paper, cardboard, glass and plastic exceeds 27 cubic yards, the facility shall immediately cease receiving any unprocessed Class A material consisting of paper, cardboard, glass and plastic until the amount of unprocessed material stored on site falls below 27 cubic yards.

ii. October through March

The total amount of unprocessed Class A recyclable material consisting of paper, cardboard, glass and plastic, stored on site, shall not exceed 75 cubic yards and shall be stored in roll off containers inside the metal building as depicted on the approved site plan drawing.

If at any time the amount of unprocessed Class A recyclable material consisting of paper, cardboard, glass and plastic exceeds 75 cubic yards, the facility shall immediately cease receiving any unprocessed Class A material consisting of paper, cardboard, glass and plastic until the amount of unprocessed material stored on site falls below 75 cubic yards.

Unprocessed recyclable material shall not remain on site, in its unprocessed form, for more than one (1) year.

6. Processed Materials Storage (Revised 7/17/00)

The total amount of processed wood material stored on site shall not exceed 21,454 cubic yards and shall be stored only in the area designated for that purpose as indicated on the approved site plan drawings.

If at any time, the amount of processed wood material stored on site exceeds 21,454 cubic yards, the facility shall immediately cease processing activities until the amount of processed wood material falls below 21,454 cubic yards.

At no time shall unprocessed and processed wood material be commingled in any of the approved stockpile areas. All processed material shall be stored separately from residues.

7. By-Products Storage

By-products shall be stored in the container(s) or area(s) as depicted on the approved site plan and shall be removed off-site to the end markets as referenced in the approved documents.

8. Horizontal and Vertical Controls

Horizontal and vertical control points for the unprocessed and processed materials stockpile areas shall be set and maintained on site. Horizontal limitation markers shall be set at the corners of the stockpile areas as depicted on the approved site plan. Vertical limitation markers shall be set at locations in close proximity of the stockpile areas and shall clearly establish elevation heights of 20 feet above the existing grade for the unprocessed and processed stockpile areas.

Metal pipe or metal rods or the equivalent as approved by the Department shall be used to establish these control points. Within approximately thirty (30) days of the acceptance date of this Approval, a joint site inspection shall be held at the facility between the owner/operator and representatives of the Department for the purpose of establishing the locations of these markers.

9. Commingling

The facility may receive, store, process or transfer source separated tree stumps, tree parts, brush and wood (non-chemically treated and unpainted) separately or in a commingled manner. The facility may receive, store, or transfer source separated bricks, stones, cinder blocks and cement separately or in a commingled manner.

10. Applicable Regulations

The operation and related activities of this recycling center shall be in conformance with all applicable federal, State, county, municipal and local statutes, rules and ordinance including but not limited to nuisance, noise, fire and safety codes.

11. Air Pollution Control Permits (Revised 7/17/00)

All processing equipment shall be operated in a manner

which is in compliance with any air pollution control permits issued pursuant to N.J.A.C. 7:27-8 and 7:27-22.

12. Safety Procedures

The operation of the recycling center all be in conformance with the Occupational Safety and Health Act (OSHA) regulations as contained in the General Industry Standards 29 CFR 1910. Construction activities shall be in conformance with the OSHA regulations as contained in the Construction Industry Standards 29 CFR 1926. A copy of the safety procedures shall be posted on site.

13. Housekeeping

Routine housekeeping and maintenance procedures shall be implemented within the recycling center interior to prevent the accumulation of litter, dust and debris, and to maintain general cleanliness in the working environment.

14. Odor Control

(Revised 7/17/00)

The operation of this recycling center shall not cause any air contaminant, including an air contaminant detectable by the sense of smell, to be present in the outdoor atmosphere in such quantity and duration which is, or tends to be, injurious to human health or welfare, animal or plant life or property, except for malodorous emissions emanating from the facility which result in odors in areas over which the owner and/or operator has exclusive use or occupancy.

15. Vector Control

The recycling center shall institute and maintain an effective vector control program at the center, directed by a qualified applicator of pesticides as set forth in the New Jersey Pesticide Control Code, N.J.A.C. 7:30.

16. Dust Control

Dust shall be controlled by the spraying of water, the spreading of calcium chloride or equivalent means as approved by this Division.

17. Noise Control

Noise controls shall be implemented so that noise levels generated at the recycling operation shall not exceed the standards set forth by New Jersey State Noise Control Regulations under N.J.A.C. 7:29-1.2.

18. Fire Protection and Emergency Response

(Revised

7/17/00)

Fire fighting and emergency procedures shall be posted, and shall include the telephone number of local fire, police, ambulance and hospital facilities.

In the event of an on-site fire, the facility shall immediately notify the local fire official and within 24 hours report the incident to the toll free DEP Hotline at 1(877) WARNDP.

19. Entrance Sign

A legible sign shall be posted and maintained at the entrance to the recycling center and indicate the hours of operation of the recycling center as well as the following information:

- a. A listing of the approved recyclable materials as specified in Condition A.1 of this Approval.
- b. The size, weight or other restrictions regarding materials to be received.
- c. A notice that all vehicles delivering materials to be recycling center will be inspected, and if found to contain contaminants greater than 1% by volume, will be rejected.
- e. A notice that persons bringing materials to the recycling center shall complete and certify a materials receipt form.

20. Soil Tracking Control

Mud, soils or other materials shall not be tracked onto any public roads by any exiting vehicles. Effective measures shall be implemented to comply with this condition.

21. Site Access

(Revised

7/17/00)

Ingress and egress of the facility shall be restricted to Andrews Drive and Lackawanna Avenue only.

22. Hazardous Waste

(Revised 7/17/00)

Any suspected or prohibited hazardous waste, as define at N.J.A.C. 7:26G-5, found in a load accepted at the facility shall not be returned to the generator. Such materials shall be segregated and stored in a secure manner and shall be immediately reported to the N.J.D.E.P. toll free Environmental Action Hotline at 1(877) WARNDP. The owner/operator shall secure the name of the collector/hauler suspected of delivering such waste to the facility and related information surrounding the incident, if available, and shall make this information known to the Department's enforcement personnel.

23. Documents On-Site

A copy of the approved documents as referenced in Condition B.1 and a copy of this approval shall be maintained at the facility and shall be made available for inspection by Department personnel or its designated representatives.

24. End-Markets

All end-markets to which recyclable materials are transported from the recycling center shall remain consistent with those end-markets specified in the approved documents. Any modification in the actual end-market for a recyclable material specified in Condition A.1 shall be in conformance with N.J.A.C. 7:26A-3.10(f).

25. Right of Entry

The New Jersey Department of Environmental Protection shall have the right to enter and inspect, without prior notice, any building or other portion of the recycling center, or any other location of the company or its affiliated companies at any time.

This right to inspect includes, but is not limited to, the right to engage in the following activities:

- a. Sampling of any materials on site;
- b. Photographing or videotaping any portion of the recycling center;
- c. Investigating an actual or suspected source of pollution of the environment;
- d. Ascertaining compliance or non-compliance with the statutes, rules or regulations of the NJDEP, including conditions of the recycling center approval issued by the NJDEP; or
- e. Reviewing and copying all applicable records, which shall be made available to the NJDEP during an inspection and submitted to the NJDEP upon request.

D. RECORDKEEPING AND REPORTING

1. Recordkeeping

In accordance with N.J.A.C. 7:26A-3.17, the facility shall maintain daily records of all materials received, stored, processed or transferred at the site. Said records shall be available at all times for inspection and shall indicate, at a minimum, the following:

- a. A daily record of the amounts of each recyclable materials by type and municipality of origin which are received, stored, processed or transferred each

day, expressed in tons or in cubic yards. Those operators specifying this information in cubic yards shall also indicate the conversion ratio of the materials from cubic yards to tons.

- b. The name, address, and telephone number of the end-markets for all recyclable materials transported from the recycling center, including the amount, in tons or cubic yards, transported to each end-market. Those persons specifying this information in cubic yards shall also indicate the conversion ratio of the materials from cubic yards to tons. NJDEP reserves the right to verify all end-market information submitted by the facility.
- c. The amount of residue disposed of, expressed in tons or cubic yards, including the name and the New Jersey Department of Environmental Protection solid waste registration number of the solid waste collector/hauler contracted to provide the haulage/disposal service. Those persons specifying the amount of residue in cubic yards shall also indicate the conversion ratio of residue from cubic yards to tons.

The facility shall retain the information for three (3) calendar years following the calendar year for which reporting is required.

2. Reporting

a. Annual Report

In accordance with N.J.A.C. 7:26A-3.17, the facility shall submit an annual report containing monthly summary statements of the information required pursuant to Condition D.1 above to the New Jersey Department of Environmental Protection on or before February 1 of each year, for the previous calendar year. The summaries shall include monthly totals of the amount of recyclable material received from each customer by the municipality of origin. Furthermore, the summaries shall include monthly totals of the amount of recyclable product transferred to each end-market. The summaries shall also include the amount of residue disposed of during each month. An annual fee will be paid to the Department on May 1, in accordance with N.J.A.C. 7:26A-2.1(b)1;

b. Residue Disposal

The facility shall certify in writing to the Department that all residue generated at the recycling center has been disposed of in accordance with the solid waste management rules at N.J.A.C.

7:26. The certification shall be submitted annually as part of the annual report;

c. Tonnage Report

The facility shall provide a recycling tonnage report by February 1 of each year to all municipalities from which recyclable material was received in the previous calendar year. The report shall detail the amount of each source separated recyclable material, expressed in tons or cubic yards, brought to the recycling center. Those persons specifying this information in cubic yards shall also indicate the conversion ratio of the materials from cubic yards to tons.

One original and one copy of the annual report and tonnage report shall be submitted to:

New Jersey Department of Environmental Protection
Division of Solid and Hazardous Waste
Chief, Bureau of Recycling & Planning
P.O. Box 421
Trenton, New Jersey 08625-0421

Failure to comply with any or all conditions of this Approval will result in the NJDEP seeking relief under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq. Specifically, each day of failure to so comply shall constitute a separate violation on the basis of which a penalty shall be assessed pursuant to N.J.S.A. 13:1E-9 and may subject the facility to regulation as a solid waste facility pursuant to N.J.S.A. 13:1E-1 et seq. and N.J.A.C. 7:26-1 et seq.

The issuance of this Approval and the conditions of operation identified herein shall not be interpreted as relieving the applicant of his responsibility to secure and maintain all other applicable federal, State and local permits or similar forms of authorization relating to the construction and operation of this facility.
